

## Digital Rate Of Turn Indicator 【DR-120】

- Indicates vessel's turning rate in digital
- Numerical display in increments of 0.1 degree
- Compact design for easy installation (Captain's day room and steering gear room etc.)

## Universal Display 【UD-10】

- Indicates analog style heading by 3.5 inch color LCD
- MED Type Approval for Gyro Compass and Magnetic Compass as an optional equipment
- Available as heading display of Magnetic Compass, instead of reflecting pipe
- Multi-level adjustable brightness by built-in button type dimmer switch

## Universal Display 【UD-100】

- Indicates analog style heading by 10.4 inch color LCD
- MED Type Approval for Gyro Compass as an optional equipment
- Multi-level adjustable brightness by built-in button type dimmer switch

Design and specifications are subject to change without prior notice, and without any obligation on the part of the manufacturer.

**CAUTION** Before operating this equipment, you should first thoroughly read the operator's manual.

# GYROCOMPASS ACCESSORIES

TOKYO KEIKI INC.

## Repeater Compass

- Compass card inside of device
- Heading indication received from master compass
- Various mounting configurations

## Repeater Mounting BB Type (BB: Bearing Bracket)

- Maintains Repeater Compass at the horizontal position
- Suitable for installation on bridge wall
- Easily measures target bearings with Azimuth Circle
- Easy to read under sunlight by Bearing Repeater Screen

## Repeater Mounting MB Type (MB: Mounting Bracket)

- Adjustable to various Repeater Compass mounting angles
- Suitable for installation in steering gear room

## Repeater Stand BH Type (BH: Bearing repeater Horizontal stand)

- Stand mounting for Repeater Compass
- Suitable for installation on bridge wing
- Easy to read under sunlight by Bearing Repeater Screen
- Easily measures celestial bodies / target bearings with Azimuth Circle

## Azimuth Circle [GAC-198]

- Useable with BB / BH Type repeaters
- Easy to measure celestial bodies / target bearings

## Digital Repeater Compass [DR-110]

- Clear indication of digital display in increments of 0.1 degree (from 000°~359.9°)
- Easy to connect with Gyro Compass system
- Compact design to be installed anywhere
- Table mount / bulkhead / flush mount types are available
- Water-proof type (optional for bulkhead / flush mount type)

## Digital Course Recorder [CR-100 / DCR-100]

- Displaying and recording various information, like the date, hour, course, ship's heading, rudder angle(DCR only), etc.
- Easy for managing recorded data in digital format
- No need to buy consumable parts
- CF card used as recording media, durable for external use
- Is equipped with USB port to extract compact size data from CF card
- Possible to write and record information via the use of touch pen

[CR-100] Standard/ Bulkhead type / Mass: 7.4kg  
IP rating: IP22

[CR-150] Retrofit / Bulkhead type / Mass: 13.0kg  
IP rating: IP22

### CR-100 Series : Single Channel Course Recorder

CR-100 <b>Standard type</b>	Heading information, Time (Serial signal)
CR-150 <b>Retrofit type</b>	Heading information (Step & Synchro signal)
CR-180 <b>Retrofit type</b>	Heading information (Serial signal)

### DCR-100 Series : Dual Channel Course Recorder

DCR-100 <b>Standard type</b>	Heading information, Rudder angle information, Time (Serial signal)
DCR-150 <b>Retrofit type</b>	Heading information, Rudder angle information (Step & Synchro signal)

## Rate Of Turn Indicator [ROTI-320]

- Indicates vessel's turning rate in analog
- Complies with IMO performance standards
- Useful for maneuvering in narrow and congested areas
- Flush (with dimmer) / bulkhead(with or without dimmer) types are available
- Utilizes long life LED backlight
- Indicator specification as follows:  
Range scale  $\pm 30^\circ 120^\circ 300^\circ/\text{min}$ . MAX  
Scale length  $\pm 120\text{mm}$
